Build new skills and get work ready
Transitioning from school is an important moment in a young person’s life. We’ve created an intensive 10 week program for school leavers and young adults who want to prepare themselves for work.

The program combines classroom and community-based learning activities with work experience opportunities, assisting students to identify areas for skill development, explore potential employment opportunities, and ultimately enter the workforce.

Program Outcomes
In addition to supporting students through three weeks of practical work experience, the program aims to assist students with:

- Working relationships and connections with your community
- Language, literacy and numeracy skills
- Developing and identifying personal values and beliefs
- Workplace interaction
- Workplace health and safety practices

Duration: 10 weeks (10 x 6 hour sessions)
