

# NDIS Emerging Roles

A project initiative as part of the  
NTSSS Employment Pathway

## Project Profile:

### Supporting the Supports Coordinators

For this project **three-day workshops for Supports Coordinators** are being delivered by **The Growing Space**. This specialised course focusses on building capacity through innovative planning and supports – enabling better investment in participants to act autonomously and be able to grow and develop.

### Industry Demand

The NDIS was projected to grow to 90,000 participants by 2019 with 36,000 new workers needed in the Queensland disability sector.

### Project Aim

The Support Coordination workshops provide wrap-around support for Support Coordinators as an integral role to people living with disability, including group supervision and Q&A Sessions to consolidate learning, discuss impacts and reflect on processes implemented along the way.
